BloombergSen  
77 King Street West, Suite 4200, Toronto, ON

## DESCRIPTION

BloombergSen is an independent, partner-owned investment counselling firm managing approximately \$2 billion in assets for high-net-worth individuals, families and institutions.

To match the superior quality of BloombergSen's services, the design of this office utilized high-quality finishings selected from all across the globe. At the planning stage, the project schedule was adjusted from a typical schedule for an 8,000 sq. ft. project to accommodate the long lead times required for the high-end finishes to arrive.

Some of the features of this project include:

- Dimmable fog glass
- Moveable wall panels
- Open-concept workstations and offices
- Full kitchen
- Café bar

Fox completed this renovation over the course of four months, all finished on time and on budget.

**PROJECT**  
8,000 sq. ft.

**CLIENT**  
BloombergSen
