Blue Ant Media
99 Atlantic Avenue, Suites 300-400, Toronto, ON

DESCRIPTION

Headquartered in Toronto, Blue Ant Media creates and distributes premium content globally from animated films to wildlife documentaries to unscripted television shows.

This office fit-out for Blue Ant Media spanned over two floors of a beautiful new building in Liberty Village.

The open ceilings and sleek polished concrete was contrasted with carpeting in the new meeting rooms, boardroom and offices, allowing for a cozy work space that still reflects Blue Ant's brand identity.

Alongside these work stations, Fox delivered a new dark room, screening room and tape library for Blue Ant's extensive collection of content.

To connect the two floors, Fox also provided structural steelwork to create a new staircase for this expansive office.

PROJECT
40,000 sq. ft.
