8,500 sq. ft.

CLIENT
Dream Unlimited

TEAM
Project Manager // Amandeep Walia
Primary Consultant // ASDG, Sonja Schroeter
Electrical Engineer // Quasar, Craig Ogden
Mechanical Engineer // Quasar, Ahmed Farag

DESCRIPTION

Dream moved into their new Ottawa head office after acquiring full ownership of ZIBI, an exciting redevelopment located in Ottawa. This 34-acre master-planned community on the Ottawa River bridges two provinces and three cultures. It is also one of Canada's largest net-zero carbon communities, making it among the most sustainable in the world.

Fox, along with Atkinson Schroeter Design Group (ASDG), completed the project to house the Dream Ottawa team at a permanent location near the LeBreton Flats corridor where Dream is heavily invested.

Fox and ASDG took care to complete this 8,500 sq. ft. office space located in the lower level of a heritage building that retains its historical façade. This interior office renovation included multiple meeting rooms, workstations, a lunch room and reception.
