Markham Technologies
10 Aviva Way, 3rd Floor, Markham, ON

DESCRIPTION

This technology firm represents a leading global manufacturer of information and communications technology and electronics. They have approximately 200,000 employees operating in over 150 countries.

The client required a well-designed layout to receive all of their employees in this new office including nine meeting rooms, four private offices, and six comfortable open office areas.

Fox Contracting worked with the design and engineering teams to transform the vacant space into a stunning office with high-quality finishes in all spaces, including the reception area and lunchroom, accommodating all the electrical and mechanical requirements by the client and landlord.

PROJECT
31,000 sq. ft.
